SUMMARY

Experienced Full Stack Developer with a strong foundation in building scalable and responsive web applications. Proficient in frontend technologies such as React.js, Next.js, Redux Toolkit, JavaScript, Tailwind CSS, HTML5, CSS3, Bootstrap, and Material UI, delivering clean and efficient UI/UX experiences. Skilled in backend development using Node.js, Express.js, and Next.js API Routes, with hands-on experience in both relational (MySQL) and NoSQL (MongoDB) databases. Adept in version control using Git and GitHub, with a collaborative mindset and a proven ability to meet project deadlines while maintaining code quality.

SKILLS

Frontend Technologies:	Redux Toolkit, Next JS, React JS, Javascript, Tailwind CSS, HTML5, CSS3, Bootstrap, Material UI
Backend Technologies:	Next JS API Routes, Express JS, Node JS
Database:	MySQL, MongoDB
Message Broker:	Redis
Version Control Tools:	Git, Github
Project Management:	Jira, ClickUp
Tools Platforms:	Postman, VS Code, Cursor IDE, OpenAI

WORK EXPERIENCE

- 1/2025 – Present **Software Developer at Maxxcell Institute of Professional Studies Pvt. Ltd.**
- Developed and maintained dynamic web applications using React.js and Next.js, focusing on performance optimization and responsive UI design.
 - Integrated MongoDB for backend data storage, implemented RESTful APIs, and ensured secure data flow between frontend and backend.
 - Collaborated with team using Git for version control
- Software Developer / MERN / Next JS / Tailwind

INTERNSHIP

- 8/2024 – 1/2025 **MERN Stack Intern from Scalefull Technologies**
- Developing and maintaining scalable web applications using the MERN stack (MongoDB, Express.js, React.js, and Node.js), ensuring optimal performance and user experience.
 - Collaborated with a cross-functional team to implement RESTful APIs, integrate third-party services, and manage state using Redux for enhanced application efficiency.
- MERN Stack / Frontend / Backend
- 7/2023 – 2/2024 **Software Developer from Aerogravity PVT. LTD.**
- As a Software Development Intern, I was engaged in a dynamic and hands-on learning experience within the world of software engineering.
 - This internship is designed to provide me with real-world exposure to the software development life-cycle, coding practices, and collaboration within a professional software development team.
- Node JS / Javascript / React / HTML5 / CSS3
- 1/2023 – 4/2023 **Front-end Development from FastFindFirm PVT. LTD.**
- I successfully completed a dynamic online internship focused on front-end development, where I honed my skills in creating intuitive and visually appealing user interfaces.
 - I gained hands-on experience with industry-standard technologies, such as HTML, CSS, and JavaScript, ReactJS. Front-end developer I experienced the coding knowledge of front end developer.
- React JS / Javascript / Bootstrap / HTML5 / CSS3

PROJECTS

MERN Stack	Bank Application Developed a full-stack bank application using the MERN stack, implementing features like account management, transaction history, and secure user authentication
MERN Stack	Blog Application Built a dynamic blog application using MERN stack, integrating features like user authentication, blog creation, and a comment system
Front-end – React	Employee Management React-based CRUD application for managing employee data. It features a login system, pagination, and a responsive user interface, making it user-friendly and efficient..
Front-end – React	E-commerce website e-commerce website built with React, designed for a seamless and user-friendly shopping experience.

EDUCATION

10/2021 - 6/2024	B.E. Computer Engineering 7.76 CGPA Completed Bachelor of Engineering specializing in [Computer Engineering].
8/2018 - 8/2021	Diploma from Govt. Polytechnic 86 % Earned a Diploma from Government Polytechnic, Nashik
3/2017 - 3/2018	S.S.C Board 91.20 % Completed SSC achieving a strong academic foundation.

COURSES

MERN Stack Development *from* **Wisdom Sprouts**

- Acquired comprehensive knowledge of MongoDB, Express.js, React, and Node.js.
- Completed various projects to apply concepts, including CRUD operations, authentication, and deployment.

NodeJS / ReactJS / ExpressJS / MongoDB / Redux

Front-End Web Development *from* **FastFindFirm Training Institute**

- I gained hands-on experience with industry-standard technologies, such as HTML, CSS, and JavaScript, ReactJS. Front-end developer I experienced the coding knowledge of front end developer.

ReactJS / Javascript / HTML5 / CSS3 / BootStrap
